ONLINE**

**INVENTIONS AND
INNOVATIONS**

EACH ORGANIZATION ENDEAVORS TO RESPECT ITS MEMBERS, AND BECAUSE THE POSITION OF INNOVATORS IN IFIA IS HIGH, THE FEDERATION TRIES TO GIVE THEM SPECIAL RESPECT. BASED ON THIS APPROACH, IFIA HAS DECIDED TO HOLD AN ONLINE EVENT IN 2021 WITH THE INV MEMBERS' ENTHUSIASTIC PRESENCE

Sleer Group, on the way of global competition.

It is our honor to inform you that Sleer Company is now among the few people selected to attend the new INV competition. As a leading European innovator of Smart and Digital technologies, Sleer Group has wanted to demonstrate itself as a global and international company. And now, through this competition, we can manifest our ideas and innovation to the world.

This event is designed for the inventors who are members of IFIA, which means that the company is now an official innovation member of The International Federation of Inventors' Association.

The International Federation of Inventors Associations is a nonprofit organization aiming to disseminate the culture of invention and innovation, support inventors transfer technology, and establish cooperation with the related organizations. It can be the best platform to represent an organization worldwide, and we think attending this event can help the company.

The first international competition for inventors and innovators recognized as members of the federation, INV Members, will be held virtually and online from 18 to 20 July 2021.

The inventions and innovations will present to the International Jury of IFIA, which consists of 35 judges from 30 countries, and they will evaluate the applications submitted for the event.

After reviewing all of the applications, the jury will announce the results, and the applicants will be notified of the decisions. Finally, if the required quorum is obtained based on the judging criteria, gold, silver, and bronze medals would be presented to the best inventions and innovations participating in the competition.

The intensive development, innovation, and cooperation between Sleer Group and our team of inventors have paid off, and receiving the INV membership and attending this event can eventually display the hard work.

After all, we would like to express our gratitude and appreciation to all our supporters, investors, and staff.

We wouldn't have the accomplishments we have without you.
